! Please take the timeframes below into consideration when submitting your application.

## Process

! An application is deemed complete when all information requested has been received.

## Applications for proposals of activities are categorised as either standard or complex proposals:

- Standard proposals are those activities that are likely to have little or no significant effect on conservation values. See the fee section for information on what fees are likely to apply.
- Complex proposals are those activities likely to have more significant effects, and therefore require careful consideration. See the fee section below for information on what fees are likely to apply.

! Please see also the [fees](#) section

## Consultation:

- Consultation is required on most applications. In general iwi have 20 working days to respond to DOC once we make a formal request. If there are considerable iwi values to consider they may request a further 20 working days to respond. If no response is received from iwi within the specified period DOC will continue to process your application, as we may be able to locate relevant information about their interests from other sources.

## Section F | Fees

### Please note

This section only applies to applications with a commercial focus – which will include applications from registered companies. The Department does not charge fees for non-commercial Wildlife Act authorisations.

! If you are making an application for non-commercial activity, [proceed to declaration](#).

### Processing fees

Section 60B of the Conservation Act contains the statutory provisions regarding processing fees.

The Department recovers all direct and indirect costs to process an application from applicants regardless of whether the application is approved or declined. If at any stage an application is withdrawn, the Department will invoice the applicant for the costs incurred by the Department up to that point.

! Applicants are required to pay the processing fees within 28 days of receiving an invoice. The Director-General is entitled to recover any unpaid fees as a debt.

### Standard application fee

The estimated standard application fee is **\$400 +GST**.

This covers most applications. However if your application is likely to have significant effects, is novel, or spans multiple DOC regions, it will require more careful consideration and may take up to 6 weeks to process and cost approximately **\$800 +GST**.

Particularly complex applications may incur further costs – you will be sent an estimate of costs in this situation. We will contact you to advise if the fee is more than the estimated standard cost. Applicants are also entitled to request an estimate of costs at any point, but the Department may impose a charge for preparing such an estimate. Estimates are not binding.

### Paying fees

The Department will ordinarily invoice the applicant for processing fees after a decision has been made on the application, but in some cases interim invoices will be issued.

Please select your method of payment below.

- I have attached a cheque
- I have direct credited the DOC account

Please use the Applicant name and permission number (which the permissions team will give to you) as the references.

**Department of Conservation**  
**Westpac Bank**  
**Account number: 03 0049 0002808 00**

- I do not intend to pay the fees at the time of applying and/or I require an invoice for payment
- I have a purchase order/number from an organisation registered with DOC

! If you are applying from outside New Zealand we can process a credit card payment – please [contact us](#) to request this procedure.

## Section F (continued) | Fees

### Fee waivers and reductions

The Director-General has discretion to reduce or waive processing fees. You may apply for a fee waiver or reduction if you can provide information to the permissions team about how your application meets at least one of the following criteria.

- The activity will make a direct contribution to management
- The activity will support or contribute to the Department's priority outcomes – stated in the Department's 2013 – 2017 Statement of Intent
- There will be other non-commercial public benefits from the activities covered by the authorisation (if approved)
- Activity covered by the authorisation (other than research, collection or educational activities) will make a contribution to the management of, or the public interest in, the lands that are covered by the authorisation

The Department may obtain further information either from the applicant or from any other relevant source in order to process the application. The applicant will be advised of any information obtained from other sources. The cost of obtaining such information will be charged to and recovered from the applicant. The applicant will be informed as soon as practicable from receipt of the application if further information is required before this application form can be fully processed by the Department.

 View the Department's 2013 – 2017 Statement of Intent [here](#) for the priority outcomes.
