

Proposed NZ Fish Passage Assessment Protocol

Paul Franklin

Introduction

- Currently many different assessment protocols used by different regions and agencies.
- Difficult to create nationally consistent picture of how big the fish passage problem is.

National protocol?

- Would deliver consistency
 - Provide basis of national database
 - National picture
-
- Is this something people want?

Proposed protocol

- Work in progress...
- Seeking input:
 - What are the key things people want?
 - What's good?
 - What's bad?
 - What's missing?
- Way forward from here...
