Topic	Explanation	Section of reply
Capability	Monetary cost to the public; risk of business / project failure; concession expiration; bond; viability of the project	Part Two: Riverstone Holdings Limited - Capability
The proposed activity	Unnecessary; inadequate justification; there are alternatives; little visual experience to be gained by the monorail travel; unproven / unlikely benefits; the time savings are not necessary; proposal wouldn't reduce travel time (by much); questionable purpose of the cycle track; cycle track is not appropriate	Part Three: The Fiordland Link Experience
Submission around the proposal / application / use of concessions / mitigation	Proposal too complicated; questions around maintenance / erosion of the mountain bike track; need for amenities for users of the bike track; inadequate application; insufficient detail; too many unknowns; mitigation is inadequate / inappropriate / not possible; queries around concession ownership; minimal / appropriate environmental impact; costs outweigh any benefits; effects are more than minor	Part Four: The Concession Application - 3. Fiordland Link Experience
Adverse impact on Conservation Area	Inconsistent with government policy / purpose for the land / statutory documents; DoC has a role; conservation estate managed to protect the environment;	Part Six: The Statutory Assessment - Conservation Act / Conservation Management Strategy
Adverse impact on National Park / Values	The National Park; the National Park Act; National Park Management Plans	Part Six: The Statutory Assessment - National Parks Act / National Park Management Plan
Adverse impact on Heritage Site / Area	World Heritage Site	Part Six: The Statutory Assessment - World Heritage Status
Ngai Tahu Deed of Settlement	The impact of the deed; that the deed has not been addressed by the application	Part Six: The Statutory Assessment - Ngai Tahu Deed of Settlement (not considered relevant to Minister's consideration)
Surrounding areas	Bi-passed communities; no certainty of impacts on Milford; no benefits / adverse effects for Te Anau tourism	Part Three: The Fiordland Link Experience - Experience of a Lifetime / Grow Fiordland; Part Six: The Statutory Assessment - Other Matters
Use of DoC land	Private benefits; benefits for greedy few; no mandate from New Zealanders who support the proposal; oppose this development / commercial projects within DoC estate; risk setting a precedent and opening up the area to further development; need to resist pressure for encroachment	Part Two: Riverstone Holdings Limited - Capability; Part 6: The Statutory Assessment; Part Three: The Fiordland Link Experience; Part Four: The Concession Application
Consumption of power / energy	Decrease in green house gas emissions; increase in consumption of energy; energy used won't necessarily be renewable	Part Three: Low Impact Visitor Growth; Part Six: The Statutory Assessment - Other Matters
Adverse impact on Takaro Lodge	Impact on the experience for the people who stay at Takaro Lodge	Part Five: The Effects - Noise
Human interference	Litter; faeces; from people using the cycle track	Part Four: The Concession Application - Adaptive Management
Terrestrial Ecology	Clearance of forest / bush; adverse impact on ecological values; wind effects; weeds and pests;	Part Five: The Effects - Terrestrial Ecology
Recreation and Access	Impact on cyclists; hunters; anglers; trampers; walkers; kayakers; 4 x 4; horse trekkers; campers; farm station staff; school groups; Te Araroa - the national walkway; the tramp to Kiwiburn Hut; recreational users / values / experiences; limit / affect access; will sever the area; impact on intrinsic values; increased number of people in the back country; will open the area up to more people; impact on the back country experience; impacts of relocating Kiwi Burn hut	Part Five: The Effects - Recreation and Access
Effects on water and rivers	Water quality, aquatic ecology, flood risk, river crossings; didymo	Part Five: The Effects - Effects on water and rivers (water quality, aquatic ecology, flood risk)
Natural Hazards	Seismic risk; extreme weather conditions	Part Five: The Effects - Natural Hazards
Noise	Including effect on animals, on other areas, within the DoC estate	Part Five: The Effects - Noise
Traffic / Roading	Transport and access solutions should not be a private initiative / should be part of a wider strategy; roading effects; heavy vehicles; dust; increase in traffic on surrounding roads	Part Five: The Effects - Traffic (note traffic generation outside of Conservation Estate not relevant to Minister's decision)
Landscape / Visual	Landscape; environment / natural values; visual impact; need to protect / preserve landscape; light pollution; impact on beauty	Part Five: The Effects - Landscape/Visual
Tourism	Adverse impact on the clean green image / tourism reputation / what tourists come to New Zealand for; don't want to reduce visitor stay; impact on tourist experience	Part Five: The Effects - Tourism (not considered relevant to the Minister's decision)
Cultural / Heritage	Principles of the Treaty of Waitangi; the concept of kaitiakitanga; heritage sites will be affected	Part Five: The Effects - Cultural and Historical
Construction	Dust; noise; sediment; earthworks; construction machinery; engineer approaches	Part Four: The Concession Application - Concession Sought / Adaptive Management
Economic impacts	Positive and negative; for the good of the Country	Part Three: The Fiordland Link Experience - Grow Fiordland
Positive impacts	Decrease in travel time; regional effects; increase in knowledge of the conservation estate; better than the current trip; the biking tracks; mitigation may result in improvements;	Part Two: Riverstone Holdings Limited - Capability; Part 6: The Statutory Assessment; Part Three: The Fiordland Link Experience;
Effects of an accident / health and safety	Search and rescue personal having to go into the back country; vegetation falling on the track; risk of hunters; fire risk; passing over / under tracks	Part Four: The Concession Application - Adaptive Management - Operational Management Plan
Irreversible effects	The project will result in indefinite / irreversible effects	Part Four: The Concession Application - Adaptive Management; Part 5: The Effects
Pollution	Pollution identified as a general effect from the proposal	Part Four: The Concession Application - Concession Sought / Adaptive Management; Part 5: The Effects
